

GENERAL ASSESSMENT OF CB TRAINING

Presenter: Grace Oima

Country: Kenya

Profession: Cartographer

Content

Background

Course content and Delivery

Knowledge gained

Continuity and Experience

Challenges

Conclusions

Recommendations

Background

1. Establishment of Hydrography in Kenya
 - Legal Framework
 - Operational Structure
 - Membership to IHO
2. Personal- Academic, Professional and work experience

Course Content & Delivery

- Training course undertaken
 - Marine Cartography, Hydrographic Data Processing and Specialism
Electronic Navigation Charts
- Duration and venue
- Course content
- Approach/Method of Delivery
- Evaluation-Knowledge gained

Continuity & Experience

- 1. Continuity- Deployment
 - Duties & Responsibilities
 - Facilitation
- 2. Experience-Technical
 - Administrative
- 3. Challenges-Operational structure-hindering growth
 - Limited facilitation due to competing resources & priorities-inexperience
 - Poor cooperation
 - Lack of awareness & Political interference

Conclusions

1. Organizational structure of the Hydrographic service in Kenya hampers the operation & coordination of Hydrographic activities
2. Status Quo-National responsibility & relevance of activities is challenged due to complete assistance in terms of production
3. Lack of awareness of Stakeholders has led to less emphasis in terms of resource allocation

Recommendations

- Staff exchange/attachment programme
- Enhanced engagement of IHO with the Government to create awareness at the National level
- IHO membership
- Establishment of the Hydrographic office as an independent state office to increase its visibility, resource allocation and capacity to coordinate hydrographic activities

Heartfelt Gratitude to The
IHO, UKHO & NIPPON
FOUNDATION

THANK YOU
