What type of legacy data is included under each CATZOC classification in your ENC's?

CATZOC allocated by HO	Data acquisition method	Comments
A1	Controlled systematic survey with modern multibeam echosounder, according to S-44 Special order. Vessel positioned by DGPS	
A2	Controlled systematic survey with singlebeam echosounder and modern side scan sonar. Vessel positioned by DGPS	
B	Controlled systematic survey with singlebeam echosounder. Vessel positioned by DGPS	
C	Old Soviet Union controlled systematic survey fair sheets (1950-1989) scanned and tied up in coordinates in WGS84.	
D	Old Soviet Union digitised nautical chart data in WGS84 for areas deeper than 40m	

**Additional Comments:**

All ENC's have not yet been updated with this scheme for data quality. They will be updated in new editions coming out after 2010.
