What type of legacy data is included under each CATZOC classification in your ENC's?

CATZOC Allocated By HO	Data acquisition method	Comments
A1	Full seafloor coverage achieved by multibeam echosounder and Side Scan Sonar. Minimum target sized block as stipulated in IHO S44 detected. Vessel positioned by DGPS. Satellite based corrections. Tide corrections ensured by real time observations.	All hydrographic data collected from 2006
A2	Not in use.	
B	Bathymetric data collected using single beam echosounder. Full seafloor coverage not achieved. Vessel positioned by DGPS. Coastal network corrections. Tide corrections ensured by real time observations.	All hydrographic data collected from 1994
C		
D		

Additional Comments:

THOC is in the process of implementing CATZOC attributes for data quality classification in all its ENC products as described in the upper table.
