GENERAL SPECIFICATIONS

(Please provide detailed information in Annex of no more than three pages)

Background information	Education is a key component of Hydrographic capacity development, in the frame of the IHO CB strategy. In 2016, the purpose of the P-06 project was to develop distance learning resources for the MSI course from the IHO catalogue and to experiment an educational model around it.
Justification of the project	The purpose of that initiative is to follow-up the P-06 project by organizing MOOC guided sessions in MSI for EAtHC countries.
Countries involved	All African coastal States inside the EAtHC region.
Explanation of the problem	Nowadays, training in hydrography faces several challenges such as the lack of resources and the growing demand from coastal States worldwide.
General objective	The main purpose of that submission is to start using the MSI MOOC resources developed in 2016.
Specific objectives	1) The organization of 2 guided sessions of the online MSI course: one in English, one in French.

Outputs/Products	MSI training for about 10-15 trainees per session.
Other deliverables	
Achievements and awaited benefits	This new way of training will grant coastal States from EAthC with a better access to MSI basic principles, regardless to the limits of a face-to-face training session..
Schedule of activities	
Past and/or current related projects supported by CBSC or other sources	E-learning experimentation (P-06) held in 2016.
