#### GENERAL SPECIFICATIONS

(Please provide detailed information in Annex of no more than three pages)

<b>Background information</b>	Maritime Safety Information (MSI) has been identified as lacking in the region. Regional MSI Workshops took place in; Sydney in Aug 2010 with 12 representatives from 10 countries; in Wellington in Aug 2014 with 15 representatives from 13 countries; in Wellington in Aug 2016 with 17 representatives from 13 countries; and in Wellington in 2018 with 13 representatives from 12 countries within the SW Pacific region.
<b>Justification of the project</b>	The MSI workshops have provided appropriate training for the region, but a requirement exists to raise and sustain personnel with MSI knowledge. In 2018 MSAF provided a trainer to join NAVAREA X and XIV in delivering the 2018 course. This was a direct result of the IHO initiative for RHCs to identify and appoint National MSI Coordinators from the region to the delivery team. It is intended to hold the workshop in Fiji, further enabling this initiative. IRCC10 – Recommendation 3: Encourage the use of the Joint Manual on MSI to ensure correct terminology and formats are used in MSI messages. IRCC10 – Recommendation 4: Encourage closer engagement of the National MSI Coordinators of Member States with the relevant NAVAREA Coordinator(s).
