

7th CSPCWG MEETING
Simon's Town, South Africa 23-26 November 2010

Paper for Consideration by CSPCWG
INT1/S52 combined publication

Submitted by:	Secretary
Executive Summary:	At CSPCWG5, members were asked to report any progress with development of a combined INT1/S52 publication
Related Documents:	INT1, S52
Related Projects:	None

Introduction / Background

Excerpt from CSPCWG6 Report:

CSPCWG5 Action 5 All WG members to report to Chairman any substantive discussion or progress about a combined INT1/S-52 symbol document. (Chairman to keep Chairman DIPWG informed). No reports of substantive actions had been received. Rob Heeley (US-NOAA) reported that US-NGA had planned to include this in US Chart 1, 11th edition. This would not now happen, but may be included in a future edition. UK also recognizes the user need and is considering the way forward. The action was closed.

Analysis / Discussion

UKHO is preparing 'Admiralty Quick Guide to ENC Symbols'. The purpose of the document is to illustrate the lesser-known or more commonly-confused ENC symbols. It is to be sent to subscribers of Admiralty Digital Chart Services free of charge. It is planned to be available by the end of October and is A3 in format.

It is hoped that a copy of the 'Quick Guide' may be available to view at the meeting.

Longer-term, UKHO plans to produce a more comprehensive document more akin to INT1, but no substantive work has yet been undertaken.

Conclusions

None.

Recommendations

None.

Action required of CSPCWG

For information only; no action is required.
