

GEBCO Science Day Poster Session: Logistics Update – 27Sept2015, 1730 GMT

1. Session times:

I am currently planning two poster sessions, both at Kuala Lumpur Convention Centre. The first session, Poster Session I, is planned during the morning break, from 1000-1045. The second session, Poster Session II, is planned from 1500-1540. There also will be poster viewing during lunch from 1250-1400.

2. Poster board information:

We have plenty of room to accommodate posters of any size up to 1.2 meters by 1.75 meters. If your poster is bigger than these dimensions, please let me and the local coordinator, CDR Norhizam Abd Ghani, know so that we can make accommodations.

3. Title, Author listing and Abstracts

If you have not gotten this information to me yet, please do so at your earliest convenience. I plan to have abstracts for the posters in the program.

4. Poster Delivery Information:

Please send or bring your poster to Royale Chulan hotel by Sunday afternoon, 04 Oct. Lt. Cdr. Shaiful RMN will collect posters Sunday afternoon to put them on display at the Convention Centre. If you cannot get them to the hotel by this deadline, there will be a small amount of time between 0800 and 0830 to setup posters.

We will need the hard copy of your poster for display. We will not have the capability to print out posters at the meeting site.

In terms of getting your poster to Science Day, there are a few options:

- a) Send it via courier service to The Royale Chulan Hotel, Kuala Lumpur at Conlay Rd, 50450 Kuala Lumpur, Malaysia with attention to Lt. Cdr. Shaiful RMN who will be looking for posters.
- b) Physically bring it with you to the hotel on Sunday afternoon.

If you are unable to get your poster delivered as discussed above, please let me know and I will work to help get your poster displayed.

6. Poster Take-Down:

All poster presenters are invited to leave their posters on display until the end of Science Day. The posters can be disposed for you if you do not wish to take them home. If you want them back and are unable to retrieve them at the end of Science Day, please let me know, and I will see what we can do to have your poster returned if you have a pre-paid courier label and container for the poster.

7. Publication of Posters on the GEBCO website:

All poster presenters are welcome to publish their poster on GEBCO's website for download. If you can send electronic copies (in PDF) to me and Pauline Weatherall as provided for in the Call for Papers anytime before the meeting, we can put your poster on the GEBCO web site if you like to do so. Optionally, you can put them on a cloud sharing site, such as Google Drive, and let us know the link to download them. We also can put them on the web site after the meeting as well. If you do not want your talk on the web site (for example, you intend to submit the material to a peer-reviewed journal for publication), that is fine too.
