

**11th CHRIS MEETING
IHB, Monaco, 16-18 November 1999**

ENC DELIVERY AND SENC CONVERSION

Specifications for Chart Content and Display Aspects for ECDIS (IHO Publication S-52).

3.3 System ENC (SENC)

- (c) This conversion process should be accomplished in the ECDIS but does not imply real-time processing of HO supplied data. It allows for the one-time conversion of the HO data upon receipt.
- (d) The official copy of the HO supplied ENC is to be kept onboard. From this, the ECDIS generates the 'System ENC', which is used for actually operating the ECDIS. Through the same conversion process, official updates are added to the System ENC.
