

Hydrographic Services and Standards Committee

Proposal by the
Standardization of Nautical Publication Working
Group
Lights numbering improvement

Presented by Mr. Jens Schröder-Fürstenberg (SNPWG Chair)

A lighthouse stands on a rocky island at sunset. A large, stylized fingerprint is overlaid on the image, centered over the lighthouse and the sun. The sky is a mix of purple, pink, and orange, with the sun low on the horizon. The lighthouse is a tall, cylindrical structure with a lantern room at the top. The foreground shows the rugged, dark rocks of the island.

One light - One ID

Action requested of HSSC

- ✦ Take note of the proposal: HSSC6-05.4B
- ✦ Consider the data stream idea
- ✦ Endorse the contact initiation with IALA
- ✦ Assign the review of the relevant S-12 parts to the SNPWG or a project team, if appropriate.
- ✦ Initiate a scoping study.
