Dear Michel,

Please find further comments to my previous email dated 24 June 2011, I am referring to Australia Response of 24 June 2011, to S-23 Working Group Letter No. 03/2011. I agree with Australia point 3 of the letter that *'the S-23 Working Group was to 'Produce a revised draft 4th edition of IHO Publication S-23., this has not been done'*. Therefore, it is concluded that the work of S-23 WG is incomplete.

Kind regards,
