

Proposed Way Forward

Nigeria's response to S-23WG Letter 06/2010

Sujet: S-23 WG Letter no. 06/2010 - Way forward to progress S-23

Dear Michel,

Making reference once again to Article 2 of IHO regulation, Nigeria agrees with the pragmatic and noble "**Proposed Way Forwarded**" which is indeed purely technical and a direct result of all the S-23 WG deliberations and issues/proposals. Any other option other than this would not be in the interest of the WG, IHO and the international community at large. Consequently, Nigeria is passionately appealing and hoping that the parties to the area of concern (naming the sea area between the Korean Penninsula and the Japanese Archipelago) consider the proposed way forward as a solution.

Best wishes always,

AA MUSTAPHA
