

**Baltic Sea INT Chart Committee****Report to the BSHC 13<sup>th</sup> Conference****[26 June 2008]**

The BSHC 12<sup>th</sup> Conference elected Mr. Jarmo Mäkinen as the Chair of the BSICC.

**1. Status of Work of BSICC**

The tasks for the BSICC are to maintain Baltic Sea INT Numbering Schema, allocate INT numbers to Member States on request and to agree on responsibilities of producing INT Charts. There is no explicit BSICC Work Programme.

The updated BSICC List of members is in Annex 1. There are no nominations from Lithuania and Russia.

The communication within the BSICC has been performed by BSICC Letters and other e-mails.

The Chair has communicated with IHB and CSPCWG.

**2. IHB Letter on coordination of small scale ENC**s

The IHB has 21 November 2007 sent a letter to RHC Chairpersons and INT Chart Coordinators regarding to a regional coordination of small scale ENC's. This is based on the decision of CHRIS-19 meeting (CHRIS-19 Annex K refers). It has been proposed that this coordination would be best managed by through either the INT Chart Coordinators and/or through the RHCs.

In Baltic Sea area there is only one small scale ENC (overview, produced by Germany).

The BSEHWG is proposing two recommendations related to overview usage band ENC's:

- 1a) Overview usage band should be in harmony with other usage bands within the producers' portfolios.
- 1b) Overview cell should be harmonised with adjacent cells in the North Sea.

See more details on BSEHWG Report to BSHC 13<sup>th</sup> Conference.

The BSICC believes that there is no need for further coordination on that issue.

### 3. Updating the Region E of M-11 (Baltic Sea)

As replies of the Chair of BSICC request for updates to the Region E of M-11 (Baltic Sea) the BSHC members has proposed many details to be updated. The Summary of the proposals is in [Annex 2](#). There were many updates to the printing schedules, some requests to change the producer nation of some INT charts, and about 100 requests for new INT chart numbers. The updates have been sent to the IHB (Michel Huet) for updating the Region E of M-11 (Baltic Sea).

The requests for new INT Numbers (about 100) have been passed via IHB to the CSPCWG. So far no reply has been received.

There were some proposals to change the production nation of some INT charts. The status of these is below:

- The proposal by Germany to change the producer nation for **INT 1022** from Germany to Sweden. This has been **agreed** between Germany and Sweden.
- The proposal by Estonia to change the producer nation of **INT 1215** from Russia to Estonia. No comments received from Russia.
- The proposal by Latvia to change the producer nation of **INT 1216** and **INT 1217** from Russia to Latvia. No comments received from Russia.

The proposed changes for production nations are described in the document in [Annex 3](#).

### 4. Updating of S-49

There was a question about the revision of S-49 and adoption of the Baltic Mariners' Guide as an INT chart status. The CHRIS-19 meeting agreed this to be included into the CSCWG Work Plan with a priority "M" and target date 2009. Information on the status of this issue is not yet available.

### 5. Actions for the BSHC 13<sup>th</sup> Conference:

The BSHC 13<sup>th</sup> Conference is requested to

1. endorse this Report
2. decide on the proposed changes of production nations (see above 3)
3. endorse the updates to Region E of M-11 (Baltic Sea)

*Jarmo Mäkinen,*  
Chairman of the BSICC

#### Annexes:

1. BSICC Membership by June 2008
2. Summary of proposed changes in Region E of M-11 (Baltic Sea)
3. Proposed changes of production nations

**Annex 2 to BSICC Report to  
BSHC 13<sup>th</sup> Conference**

Helsinki, 24 June 2008

**Summary of proposed changes to Region E of M-11 (Baltic sea)  
by 24 June 2008**

The following comments and proposals have been received:

[green means updates to existing scheme,  
red means proposed changes to be agreed by BSICC,  
yellow means other comments]

**Denmark:** Proposed changes in a detailed plan of one chart.

**Estonia:** Informed on updates to printing schedules for 8 charts  
Requested New INT numbers for 22 charts  
Requested Change of Production nation for one chart

**Finland:** Informed on updates to printing schedules for some charts

**Germany:** Questioned about a separate BSICC Catalogue  
Reminded on a correction to the IHO Web site  
Informed on updates to printing schedules for 6 charts  
Proposed Change of Production nation for one chart  
Requested INT status to Mariners' Routeing Guide  
Proposed a BSICC meeting

**Latvia:** Requested Change of Production nation for two charts  
Proposed Adjustment of coordinates of two charts  
Informed on updates to printing schedules for 8 charts  
Informed on four new planned charts

**Poland:** Proposed [with Denmark] Adjustment of coordinates of a chart

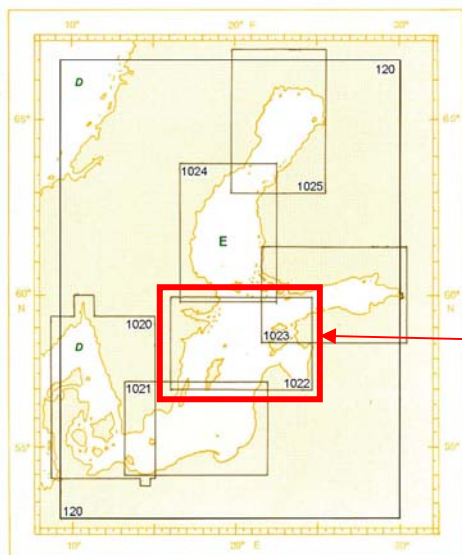

**Sweden:** Proposed updates to printing schedules for about 45 charts  
Delivered Coordinates to all Swedish charts and plans  
Requested New INT numbers for 46 charts

## Baltic Sea INT Chart Committee

## Proposed change of production nations

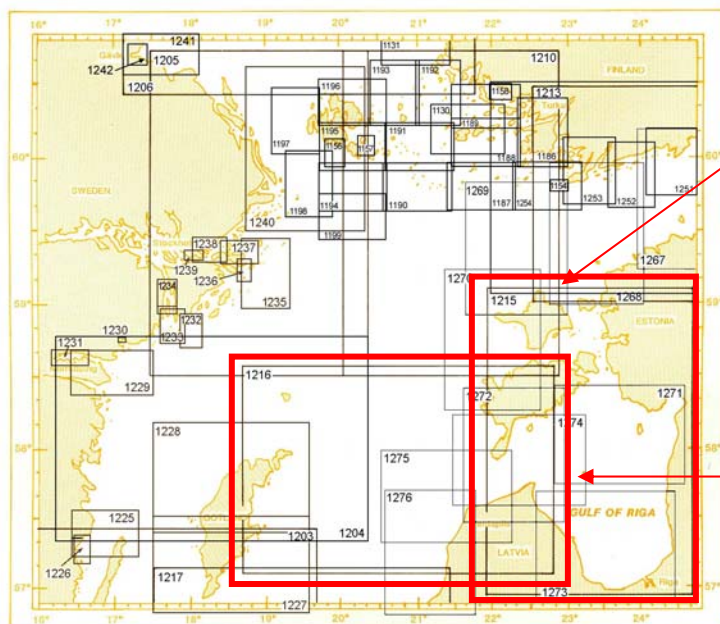

(By 24 June 2008)

There were some proposals to change the production nation of some INT charts. These cases and the status is shown below:

The proposal by Germany to change the producer nation for **INT 1022** from Germany to Sweden.

This has been **agreed** between Germany and Sweden.

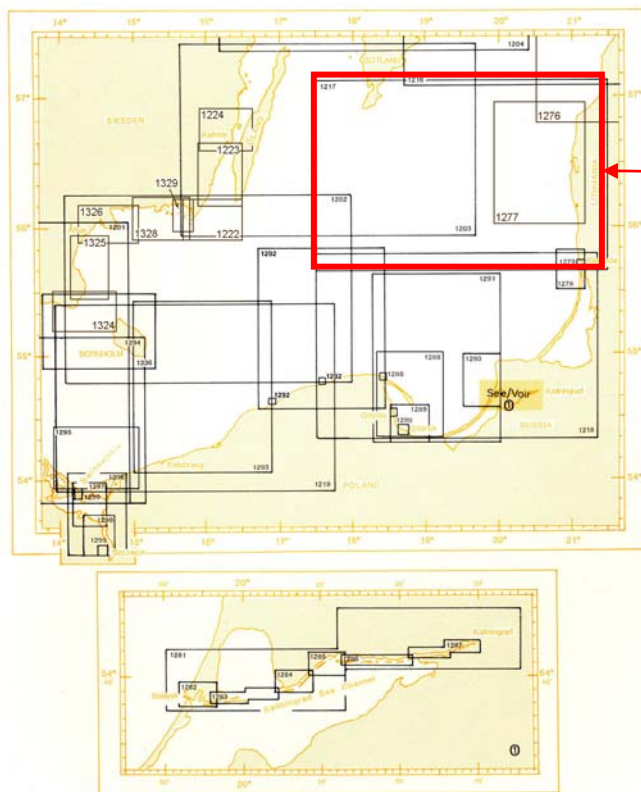

The proposal by Estonia to change the producer nation of **INT 1215** from Russia to Estonia.

No comments received from Russia.

The proposal by Latvia to change the producer nation of **INT 1216** from Russia to Latvia.

No comments received from Russia.

The proposal by Latvia to change the producer nation of **INT 1217** from Russia to Latvia.

No comments received from Russia.
