

**10ème CHAtO / EAtHC 10th**

**Couverture ENC / ENC coverage**

# Catalogue OHI / IHO catalogue

<http://www.ohi.shom.fr/>  
→About-ENCs/ A propos des ENC

# Situation actuelle / Current situation ENC band 1

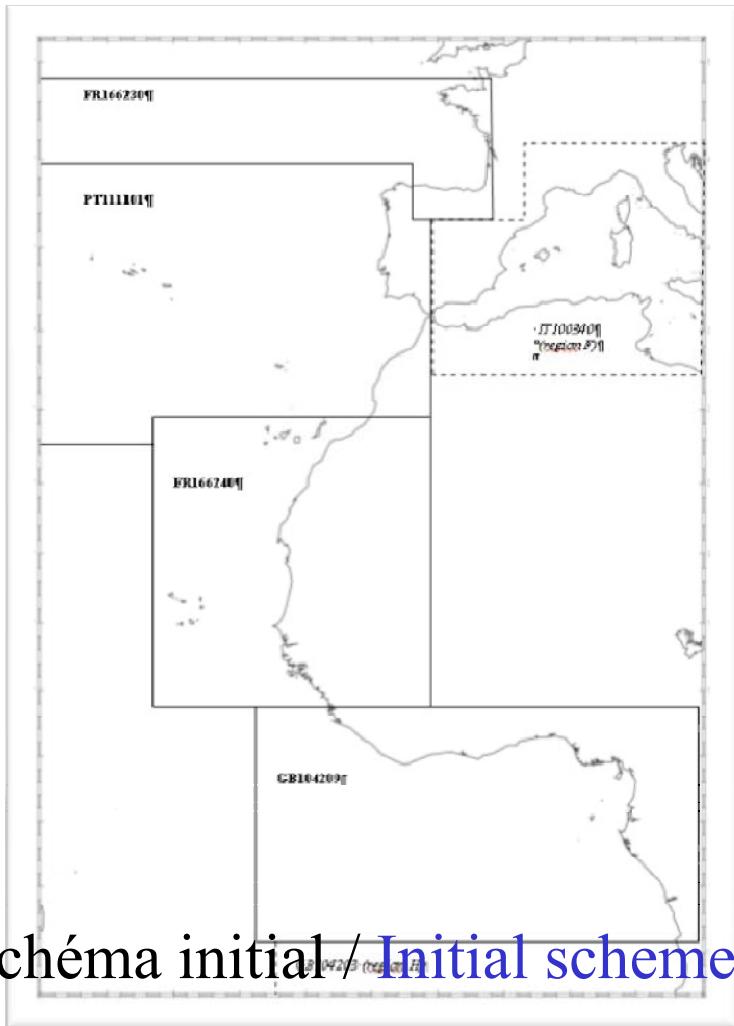

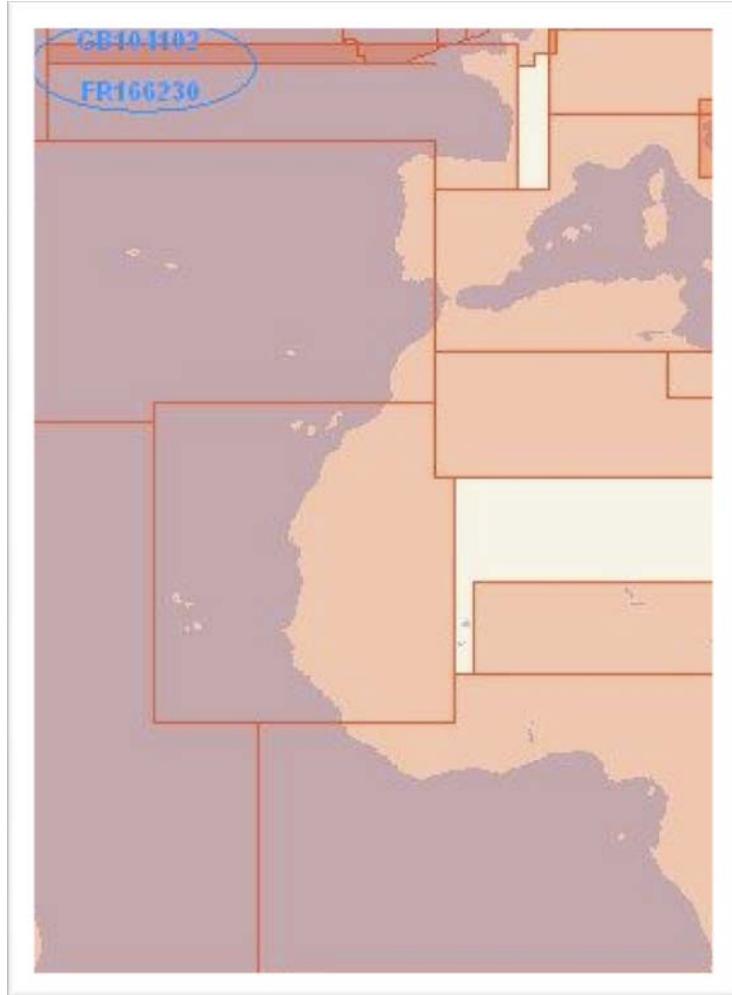

Schéma initial / Initial scheme

# Propositions / Proposals ENC band 1

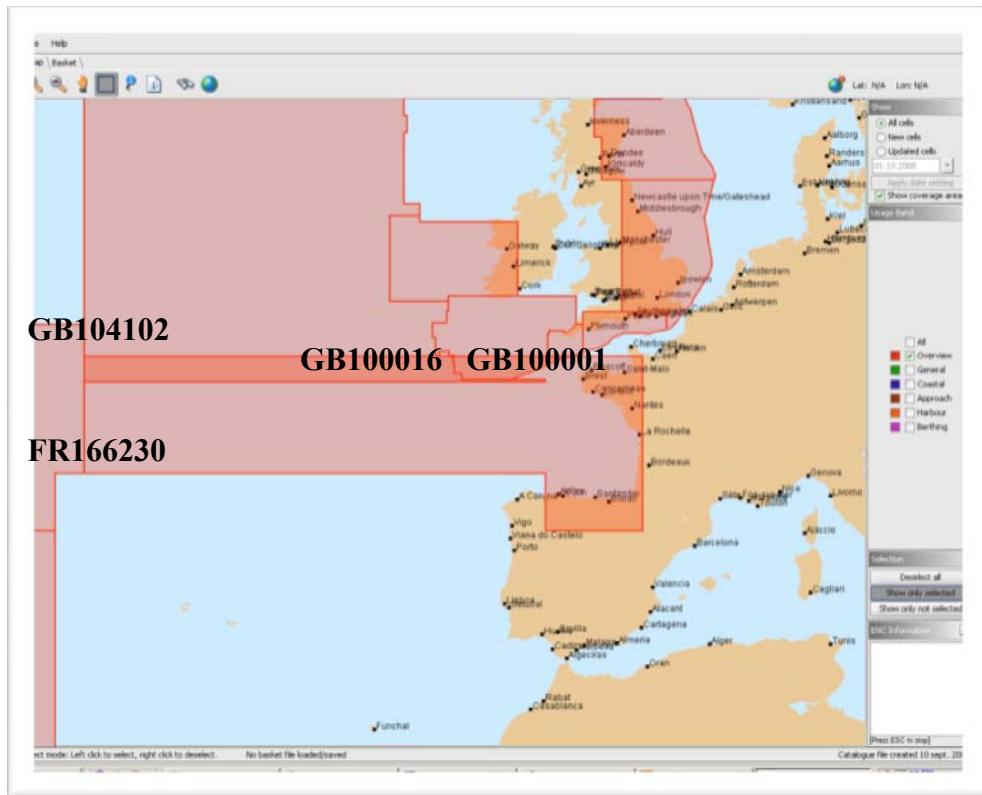

Superposition des ENC FR et GB (limite entre CHAtO et CHMN)

*Overlap between GB and FR ENC (limit between EAtHC and NSHC)*

- GB104102 (1 : 3 000 000)
- FR166230 (1 : 1 500 000)
- GB100016 (1 : 350 000)
- GB100001 (1 : 180 000)

→ Problème à résoudre entre la France et le Royaume-Uni

→ Overlap to be solved between FR and UK

# Situation actuelle / Current situation ENC band 2 – INTU2

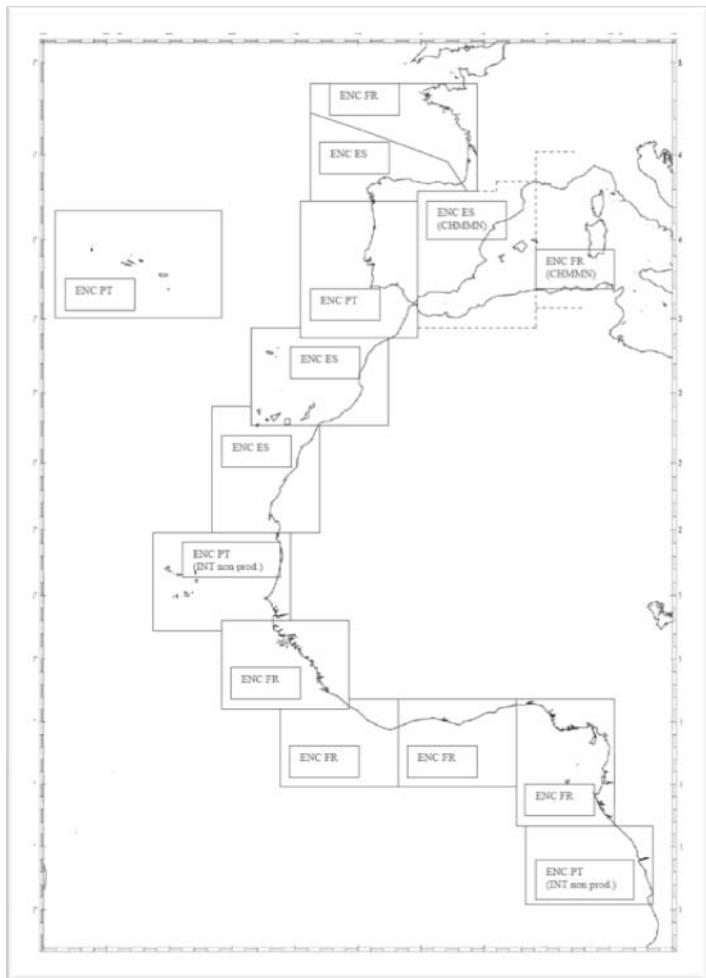

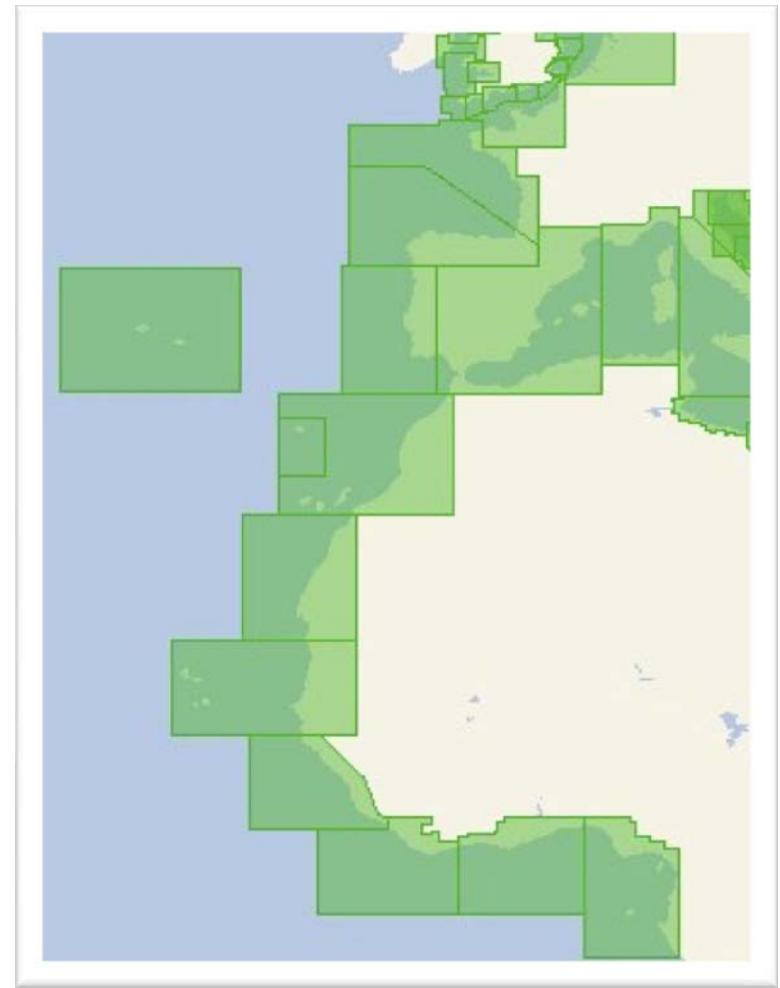

Schéma initial / Initial scheme

# Propositions / Proposals ENC band 2 – INTU2

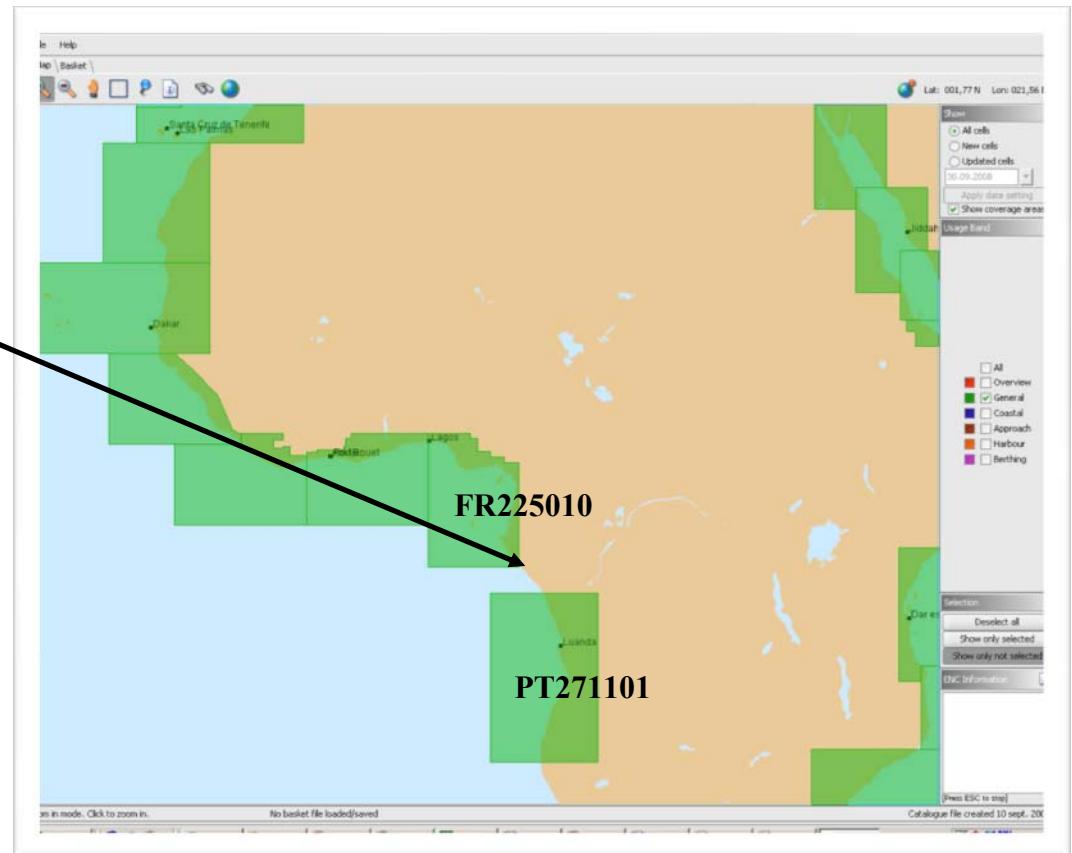

Discontinuity between ENC FR and PT

→ Problem to solve by Portugal (new cut of the paper chart planned?)

*Gap between PT and FR ENCs*

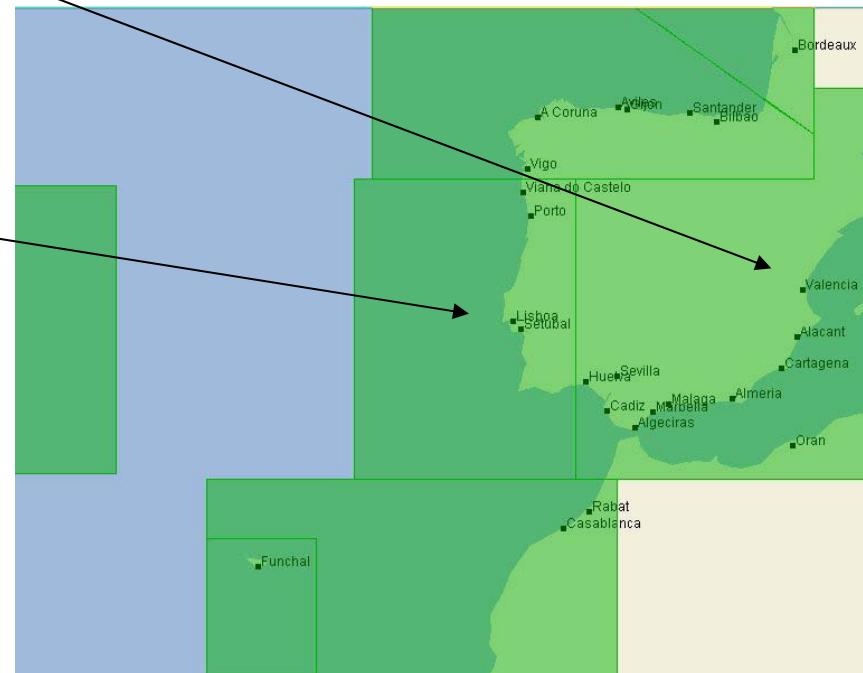

→ To be solved by PT as a new paper chart (having new limits) is expected?

# Propositions / Proposals ENC band 2 – INTU2

*ES agreed with PT that the Western limit of ENC ES200303 (corresponding to INT 303 in the MEDINTCHART scheme), would be meridian  $7^{\circ} 15',00W$ , which would be also the East limit of the ENC PT221101*

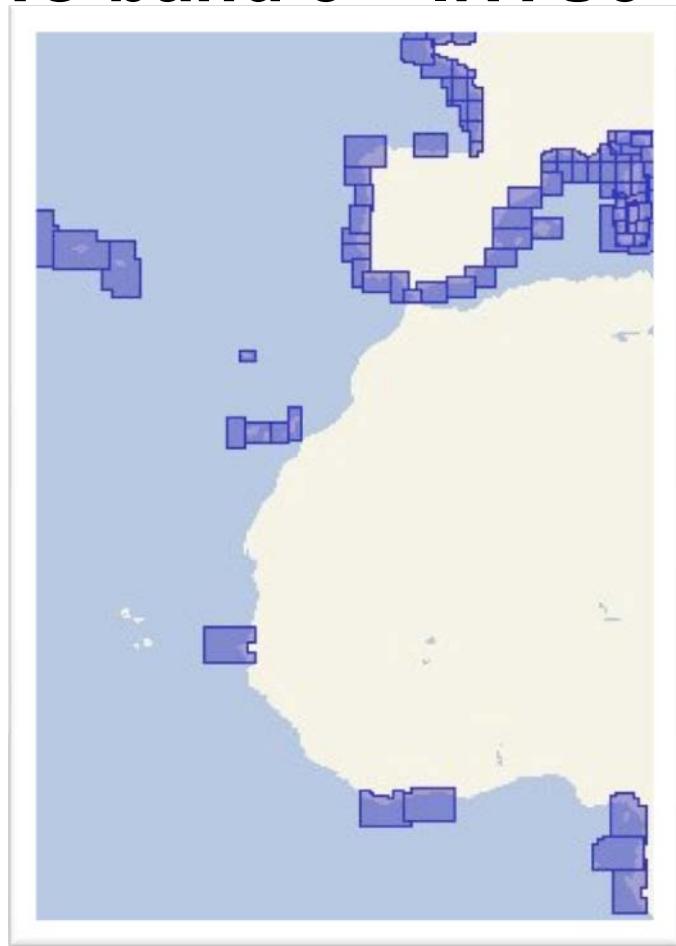

*Résolu/ Completed*

Suggestion ES : alignement limites U2 et U1 à Gibraltar  
→ Proposal: stand-by unless good cartographic reasons PT/IT

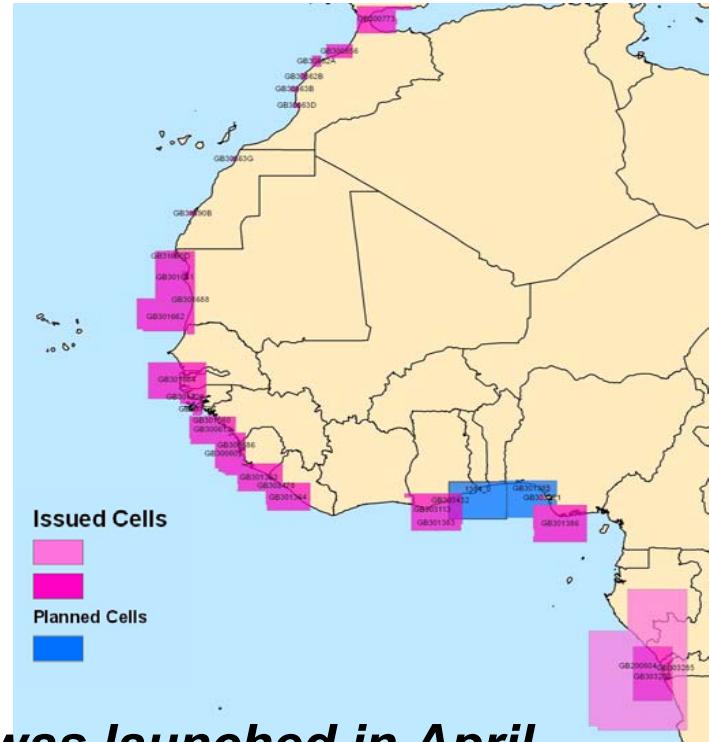

# Situation actuelle / Current situation ENC band 3 – INTU3

# Catalogue Royaume-Uni - UKHO catalogue

## ENC AVCS

**The Admiralty Vector Chart Service (AVCS) was launched in April 2008. These infill ENCs will be withdrawn when Coastal States are in a position to issue and maintain their own.**

# Schéma ENC - *ENC scheme*

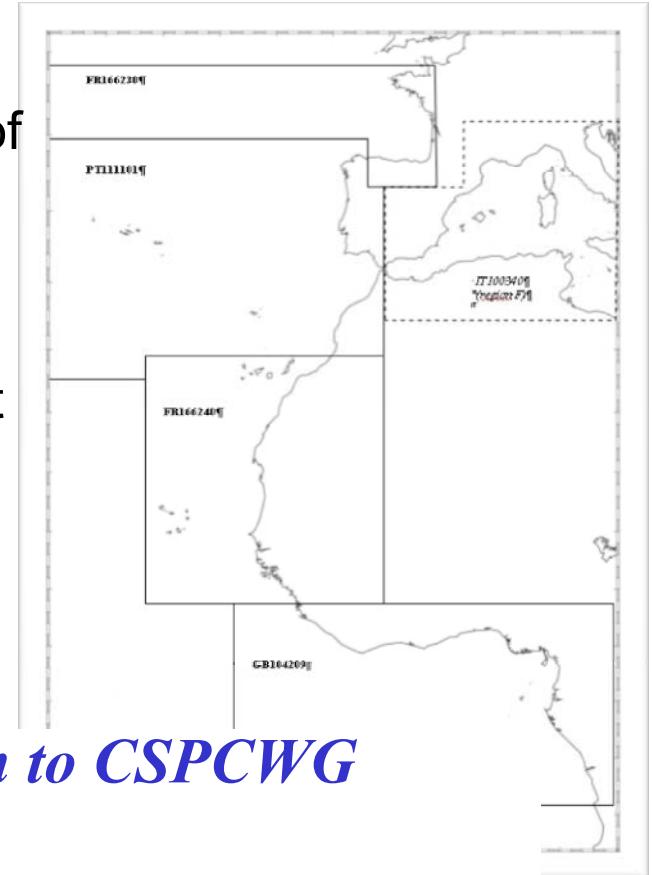

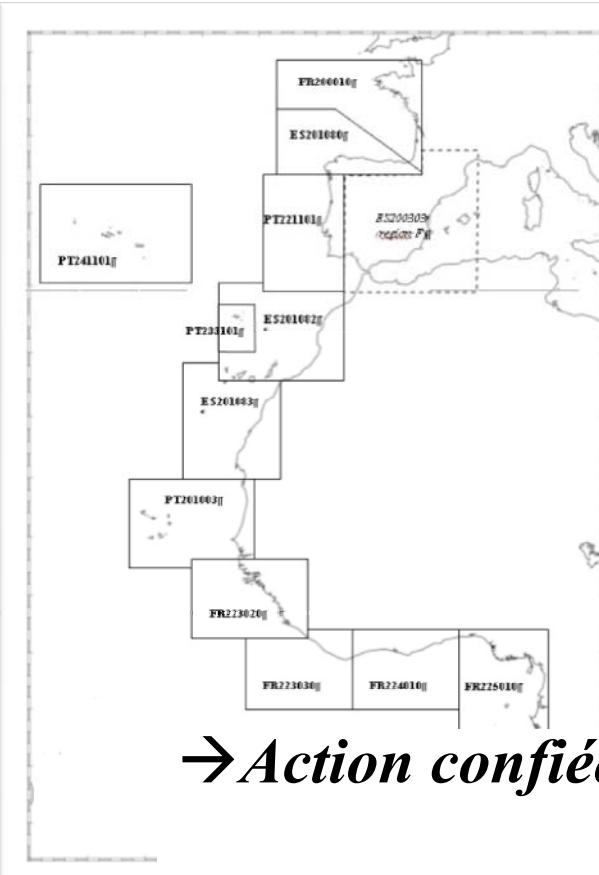

@ WEND action11/12

“IHB to invite relevant RHCs and INT chart coordinators to coordinate the development of small/medium scale ENC schemes”

→ FR as chart coordinator to prepare a **standard** document presenting approved EAtHC ENC schemes

→ This scheme should be made available on IHO website or M11 etc...?

→ *Action confiée au CSPCWG / Task given to CSPCWG*

# CHAtO 9-9 – Routes pour les NGV

## Navigation routes for HSC

*ES – The coverage of area of responsibility for ENC was completed, including High Speed Craft navigation routes (fully compliant with IMO regulations)*

*FR – les routes de trafic international seront couvertes d'ici 2010 soit par les ENC produites par la France, soit par des ENC « temporaires » produites par l'UKHO dans le cadre du service AVCS.*

→ CHAtO10.x (= CHAtO9-9) : tenir informé le coordonnateur CHATINTCHART (FR), des routes utilisées ou prévues pour les liaisons par les navires à grande vitesse.

→ EAtHC10.x (= EAtHC9-9) : to report to CHATINTCHART Coord. (FR) on current or planned high speed crafts routes.

# Cohérence des ENC - ENC consistency

## Action CHRIS 20.19 :

“IHB to draw MS attention to the BSHC regional model for the implementation of S-65 Appendix A - *Recommendations for Consistent ENC Data Encoding* and the endorsement of WEND and CHRIS regarding this approach.”

## Action CHRIS 20.19 :

“BHI : attirer l'attention des EM sur l'exemple de modèle régional adopté par la CHMB pour la mise en cohérence des ENC (Appendice A de la S65 - *Recommendations pour la cohérence des ENC*) ainsi que la promotion de cette approche par les comités WEND et CHRIS”.

- Effectuer le même type d'étude et d'harmonisation pour les ENC produites sur la région CHAtO
- EAtHC to do the same study and harmonisation for ENCs produced in this region

# Mécanismes de mise à disposition/ Availability issues

*Toutes les ENC sont normalement contrôlées, intégrées et diffusées par les RENC (centre régional de diffusion des cartes électroniques PRIMAR et IC-ENC)*

*All ENCs are normally checked, integrated and made available through RENCs (PRIMAR and IC-ENC)*

*CHAto 10.x : confirmer au coordonnateur la politique de distribution souhaitée par les Etats côtiers (tous)*

*CHAto 10.y : confirmer au coordonnateur que l'UKHO est favorable à la mise à disposition des ENC GB couvrant ces Etats côtiers via les RENCs (sans exclusivité) (UK)*

*EAtHC 10.x: coastal States to confirm their wish for ENC distribution policies to the EAtHC coordinator (All)*

*EAtHC 10.y: UKHO to confirm to the coordinator the availability of ENC GB covering these coastal States, through the RENCs (without any exclusivity) (UK)*
