From the information available at the IHB, as of November 2013, a total of 71 INT charts had been produced, out of the 111 INT charts now in the scheme, that is 3 additional New Charts (NC) since HCA-12. They have been published by Brazil (INT 9126 and INT 9127) and Ecuador (INT 9129). No New Edition (NE) has been published during the reporting period.

18 INT Charts (NC or NE) are planned for publication in 2013 – 2015. They have been marked in **yellow** in the catalogue below.

Doc. HCA12-08.1C provides a lay-out of the status of INT chart production in Antarctica, as of November 2013. Doc. HCA12-08.1B focuses on INT charts in progress or not produced.
