SCALE - 1: 300 000 (70°00'S)

PROJECTION-MERCATOR

SPHEROID - WGS 84

Sources: From the latest information in the SA Hydrographic Office 2012. TerraSAR-X satellite image of 2011 supplied by The Satellite Application Centre (SAC), W. Smith and D. Sandwell Derived Satellite Altimetry and Bathymetric contours (Alfred-Wegener Institute, Germany). Depths from the National Geophysical Data Centre, GEODAS (Boulder, Colorado USA) and the RSA Department of Environment Affairs (Antarctic and Islands Division).

#### ANTARCTIC TREATY

Certain Antarctic Treaty restrictions and regulations apply within the limits of this chart. For details of these, see Admirally Sailing Directions NP 9 and South African Sailing Directions VoIIII SAN HO-23, Chapter 10.

#### ICE CHELE

The ice shelf along the entire coast covered by this chart is subject to constant change and is in the region of 30m to 50m in height. Extreme caution must be exercised when navigating in poor visibility and in close proximity of the ice shelf. Reference to South African Sailing Directions Vol IIISAN HO-23 Chapter 10 is advisable.

Heavy vehicle route between SANAE IV and Neumayer Station (Germany)
