

MACHC Letter 18/2015

Date, 15 October 2015

To: MACHC members, Associate members and Observers

Subject: IRCC7 report to the MACHC

It was my honour to represent the MACHC during the IRCC7 meeting in Mexico City last May. In this letter I will provide a back brief as part of the preparation for the upcoming MACHC meeting on Antigua in December.

During the IRCC7 I gave a short report on MACHC activities which was summarised as follows:

"The MACHC Chair informed the Committee on the progresses made on the membership and the success of the provision of English-Spanish interpreters during the meetings to overcome the language barrier. He reported the very good attendance during the meetings and outcomes of the MACHC Integrated Charting Committee in coordinating efficiently the solution of overlaps and gaps, the views for the Marine Economic Infrastructure Program Committee to act as a catalyst for the wider use of Hydrography, and the very active Capacity Building Committee and its structured plan for the region. He also reported the cooperation with regional organizations and the development of the Mexican CB project named "Strengthen the hydrographic abilities in Mesoamerican and the Caribbean sea" (FOCAHIMECA in Spanish) for improving the hydrographic capacity in the region".

In Annex A you will find a filtered list of IRCC7 decisions that affect the MACHC region or may be of immediate interest to its Members.

In Annex B I provide a filtered list of IRCC7 action items that relate to the MACHC region. A specific MACHC column is added that places the IRCC7 actions within the MACHC context and proposes the way ahead. This column will be the basis for discussion during MACHC agenda item 2.2 "IRCC7 Report".

Sincerely yours,

Captain RNLN Marc C. J. van der Donck
Director Netherlands Hydrographic Office
Hydrographer of the Royal Netherlands Navy
Chairman, Meso American & Caribbean Sea Hydrographic Commission
