

NSHC Letter 06/2016  
10-06-2016

To: NSHC members

**Subject: Data Quality Working Group**

Dear Collegues,

The Data Quality Working Group (DQWG) is preparing a paper for the S-100 Working Group. This paper addresses Quality of Bathymetric Data in relation to stability of seabed. The DQWG would like to raise awareness among NSHC members of the S-101 standards that will need to be published in 2017 and how they are currently developing.

The DQWG invites the NSHC members to take notice of this paper and provide feedback. The latest draft is enclosed. I have allocated agenda item B.6 of the 32<sup>nd</sup> NSHC for this.

Yours sincerely,

A handwritten signature in blue ink, which appears to read 'M. van der Donck'. The signature is stylized and fluid.
